## **Streamline Health's Enterprise Content Management Solution Ranked #1 by hospital executives**

### **Streamline's Looking Glass™ Solution is Top Rated Document Improvement Software in Black Book Rankings Report**

ATLANTA, June 23, 2014 /PRNewswire/ -- [Streamline Health Solutions, Inc.](#) (NASDAQ: STRM), a leading provider of transformational data-driven solutions to help healthcare providers reduce exposure to risk, enhance clinical, financial, and operational performance, and improve patient care, today announced that the Company's [Looking Glass™ enterprise content management \(ECM\) solution](#) was ranked #1 in the category of document improvement software in a recent [survey conducted by Black Book Rankings](#).

Black Book Rankings surveyed over 2,600 hospital CFOs, CIOs, business office managers, technology and financial professionals about financial systems software and services solutions between January and June 2014. The respondents hailed from 566 different hospital and inpatient organizations. The survey ranked healthcare IT and outsourced services vendors by customer satisfaction on 18 client experience-based key performance indicators (KPIs). Streamline Health's Looking Glass™ enterprise content management solution ranked the highest in its category.

In today's hybrid environment of documents and electronic records, enterprise content management solutions help healthcare providers modernize, organize and consolidate paper-based processes for improved information flow throughout the organization, ultimately resulting in improved coordination of patient care. The process of obtaining a record can be time consuming, and many times clinicians will not have all of the information they need at the time of service, creating a knowledge gap that can prevent them from delivering the best possible care. By providing access to these documents from within the electronic health record (EHR), all of the patient's documentation is readily available whenever a clinician needs it.

"We are honored that the healthcare community considers our enterprise content management solution to be best in class," said Robert E. Watson, President and Chief Executive Officer, Streamline Health. "Our entire suite of Looking Glass™ solutions deliver tremendous value to our clients, and by providing critical information at the point of service, our ECM solution helps further our mission to help our clients reduce exposure to risk, enhance their clinical, financial and operational performance and most of all, improve patient care."

#### **About Streamline Health**

[Streamline Health Solutions, Inc.](#) (NASDAQ: STRM) is a healthcare industry leader in capturing, aggregating, and translating enterprise data into knowledge - actionable insights that reduce exposure to risk, enhance operational performance, and improve patient care. Through our Looking Glass™ Platform we provide clients with meaningful, intelligent SaaS-based solutions from patient engagement to reimbursement.
