### Reconciliation of Non-GAAP Financial Measures (Unaudited)

#### Table C

This press release contains a non-GAAP financial measure under the rules of the U.S. Securities and Exchange Commission for adjusted EBITDA. This non-GAAP information supplements and is not intended to represent a measure of performance in accordance with disclosures required by generally accepted accounting principles. Non-GAAP financial measures are used internally to manage the business, such as in establishing an annual operating budget. Non-GAAP financial measures are used by Streamline Health's management in its operating and financial decision-making because management believes these measures reflect ongoing business in a manner that allows meaningful period-to-period comparisons. Accordingly, the Company believes it is useful for investors and others to review both GAAP and non-GAAP measures in order to (a)Â understand and evaluate current operating performance and future prospects in the same manner as management does and (b)Â compare in a consistent manner the Company's current financial results with past financial results. The primary limitations associated with the use of non-GAAP financial measures are that these measures may not be directly comparable to the amounts reported by other companies and they do not include all items of income and expense that affect operations. The Company's management compensates for these limitations by considering the company's financial results and outlook as determined in accordance with GAAP and by providing a detailed reconciliation of the non-GAAP financial measures to the most directly comparable GAAP measures in the tables attached to this press release. Streamline Health defines "adjusted EBITDA" as net earnings (loss) plus interest expense, tax expense, depreciation and amortization expense of tangible and intangible assets, stock-based compensation expense, significant non-recurring operating expenses, and transactional related expenses including: gains and losses on debt and equity conversions, associate severances and related restructuring expenses, asso
