Health®

Streamline Health is leading an industry movement to improve healthcare providers' financial performance by moving mid-to-late revenue cycle interventions upstream, optimizing coding accuracy for every patient encounter prior to bill submission. By improving coding accuracy before billing, providers can reduce lost revenue, mitigate overbill risk, and reduce denials and days in A/R. This enables providers to turn unpredictable revenue cycles into dynamic revenue streams.

"We appreciate the longstanding relationship we have with Wells Fargo and are happy to have extended our existing agreement into our fiscal year 2020," stated David Sides, President and Chief Executive Officer, Streamline Health. "We have continued to lower costs and improve operations which has positively impacted leverage. With the previously announced cost initiatives and improvements in leverage, we can focus on more investments in growth in our fiscal 2019 planning process."
