

Large Southwestern Health System Signs New Contract for Streamline Health® eValuator™

Mar 16, 2021

Automated Coding Analysis for Inpatient and Outpatient Care

Atlanta, GA, March 16, 2021 (GLOBE NEWSWIRE) -- [Streamline Health Solutions, Inc.](#) (NASDAQ: STRM), provider of the eValuator™ Revenue Integrity Program to help healthcare providers proactively address revenue leakage and compliance exposure, today announced it has signed a contract with a 1,300-bed, Epic EMR-based health system in Arizona. The healthcare provider will use eValuator's cloud-based automated pre- and post-bill coding analysis technology to help improve revenue integrity for their inpatient and outpatient services.

Streamline Health is leading an industry movement to enable every hospital in the country to use pre-bill technology to improve financial performance. With eValuator, providers are identifying and addressing coding issues before they contribute to revenue leakage, denied claims and non-compliance exposure. The company combines this new technology with expert auditing services to deliver a complete Revenue Integrity Program to its clients. The eValuator program helps users optimize coding and documentation accuracy for every patient encounter prior to billing, substantially improving current financial performance while also assisting in the transition to new payment models.

"We're pleased to continue the trend of partnering with Epic-based health systems to enable pre-bill coding optimization with minimal disruption to existing operations," stated Tee Green, President and Chief Executive Officer, Streamline Health. "This is further validation that providers recognize the valuable role new technology like eValuator can play as they seek to improve revenue integrity and overall financial performance."

About Streamline Health

Streamline Health Solutions, Inc. (NASDAQ: STRM) is a leader in pre-bill revenue integrity solutions for healthcare providers.
