Midwest-based Medical Facility Selects Streamline Health for Hosted Document Workflow Solutions

Cincinnati, Ohio – October 28, 2010 --- Streamline Health Solutions, Inc. (Nasdaq CM: STRM) a leading provider of document workflow solutions for hospitals, today announced that a medical facility located in the Midwestern region of the U.S. has entered into a seven (7) year contract for Streamline Health's accessANYware™ hosted document workflow solutions integrated with the enterprise electronic medical record (EMR) system of Streamline Health's largest remarketing partner. The total value of the contract is estimated to exceed \$800,000 with implementation expected to be complete in the third calendar quarter of 2011.

Through this integrated solution, the medical facility looks to improve operational efficiencies, redefine patient care and provide a complete view of the electronic record across the continuum of care. Streamline Health will assist the acute care facility by providing convenient electronic access, including secure web-based access, to all forms of patient information anytime, anywhere. The use of Streamline Health's enterprise solutions will lead to improvements in regulatory compliance, reduction in operating costs, as well as enhancements in the coordination of care.

"We are pleased to deliver integrated solutions offering improvements in operational efficiencies to enhance patient care," said J. Brian Patsy, president and CEO of Streamline Health. The seamless integrated workflow solutions will offer the medical facility a flexible, automated process that increases productivity and reduces costs."

Mr. Patsy continued, "We are particularly pleased with the traction that we are gaining in our sales and marketing efforts to this point in the fiscal year. We are approaching the lower end of our sales goal for the entire year while still operating in our third fiscal quarter. We hope to finish the year on a strong note."

About Streamline Health

Streamline Health is a leading supplier of document workflow and document management tools, applications, and services that assist strategic business partners and healthcare organizations to improve operational efficiencies through business process optimization. The Company provides integrated tools and technologies for automating document-intensive environments, including document workflow, document management, e-forms, connectivity, optical character recognition (OCR) and business process integration.

Streamline Health's solutions create a permanent document-based repository of historical health information that is complementary and can be seamlessly integrated with existing disparate clinical, financial and administrative information systems, providing convenient electronic access to all forms of patient information from any location, including secure web-based access.
