## **FOR IMMEDIATE RELEASE**

### Streamline Health Solutions Enables Electronic Medical Records System for Leading Canadian Healthcare Provider

*Real-time Medical Records Set the Stage For Enhanced Decision-Making, Improved Medical Outcomes and Reduced Costs*

**Cincinnati, Ohio – December 7, 2010** -- Streamline Health Solutions, Inc. (NasdaqCM: STRM), a leading provider of enterprise document workflow solutions for hospitals, announced today that a leading Canadian healthcare system will integrate Streamline Health's document workflow solutions into its existing enterprise clinical information system at an additional healthcare facility to enable complete real-time electronic patient medical records.

Streamline Health's integrated solution is designed to deliver improved efficiencies by providing convenient electronic access, including secure web-based access to all forms of patient information from any location. The integrated solution will offer critical features and functionality for physicians and healthcare providers to maintain and retrieve accurate, real-time, patient records within a streamlined health information exchange.

"Streamline Health is committed to providing the technological tools that pave the way for the provision of world-class healthcare," said J. Brian Patsy, president and chief executive officer of Streamline Health. "We play an important role in integrating the various software solutions that medical institutions rely on to produce the real-time electronic medical data that leads to improved decision making for better medical outcomes, improved patient quality of life and reduced healthcare costs."

Mr. Patsy continued, "The global healthcare industry is rapidly changing and the integration of our solutions can transform hospitals by optimizing business processes, improving patient care, cutting costs and driving a significant return on previous technology investments. We are pleased to serve this unique niche in the market that drives substantial value."

#### **About Streamline Health**

Streamline Health is a leading supplier of document workflow and document management tools, applications and services that assist strategic business partners and healthcare organizations to improve operational efficiencies through business process optimization. The Company provides integrated tools and technologies for automating document-intensive environments, including document workflow, document management, e-forms, connectivity, optical character recognition (OCR) and business process integration.

Streamline Health's solutions create a permanent document-based repository of historical health information that is complementary and can be seamlessly integrated with existing disparate clinical, financial and administrative information systems, providing convenient electronic access to all forms of patient information from any location, including secure web-based access.
