Streamline Health Announces Five-Year Licensing Agreement With FTI Consulting

Leading Global Business Advisory Firm Licenses Streamline Health's Business Analytics and Patient Financial Services Solutions

CINCINNATI, July 25, 2012 /PRNewswire/ -- Streamline Health Solutions, Inc. (NasdaqCM: STRM), a leading provider of enterprise content management and business analytics solutions for healthcare organizations, today announced that it has entered into a five-year licensing agreement with global business advisory firm, FTI Consulting, Inc. (NYSE: FCN). This new Software as a Service license follows a recently announced joint marketing agreement between the two companies. To address clients' complex revenue cycle challenges, FTI Consulting will utilize Streamline Health's OpportunityAnyWare business intelligence and analytics and patient financial services automated workflow solutions for accounts receivable, denials, and audits.

FTI Consulting business advisors will now have access to powerful business intelligence through OpportunityAnyWare, Streamline Health's web-based solution that aggregates data from disparate sources and provides a real-time view of an organization's financial key performance indicators. Consultants can perform advanced data mining and opportunity analysis and conduct in-depth root cause analyses. Combined with the ARWare and AuditWare workflow solutions and 835DenialWare data import solution, organizations can increase cash flow, improve net revenue, optimize the audit process, and understand the root causes of denials for successful appeals. The full suite helps organizations gain a full understanding of their financial performance with access to consistent, updated, and reliable data for sophisticated workflows.

"Today's healthcare organizations are faced with declining reimbursements, complex audits, and denials from both private payors and the government," said Robert E. Watson, president and chief executive officer of Streamline Health. "By combining our business intelligence and analytics solution as well as our automated workflow suite with FTI Consulting's knowledgeable advisors, we can help hospitals, physicians groups, and other healthcare organizations identify their most impactful financial issues and take the steps needed to allow their organizations to make truly informed business decisions to maximize revenues."

Brian Flynn, senior managing director of the FTI Consulting Healthcare Solutions group, said: "FTI Consulting is dedicated to helping our clients protect and enhance enterprise value. By licensing Streamline Health's full suite of business intelligence, analytics, and workflow solutions, our advisors will now be able to access and analyze massive amounts of complex financial data that would otherwise be too cumbersome for our clients. This maximizes the ability to collect reimbursements and deal with complex audits and denials and other issues across the revenue cycle on all of our engagements."

About Streamline Health

Streamline Health provides solutions that help hospitals and physician groups improve efficiencies and business processes across the enterprise to enhance and protect revenues. Our enterprise content management solutions transform unstructured data into digital assets that seamlessly integrate with disparate clinical, administrative, and financial information systems. Our business analytics solutions provide real-time access to key performance metrics that enable healthcare organizations to identify and manage opportunities to maximize financial performance. Our integrated workflow systems automate and manage critical business activities to improve organizational accountability to drive both operational and financial performance. Across the revenue cycle, our solutions offer a flexible, customizable way to optimize the clinical and financial performance of any healthcare organization.
