Streamline Health® Expands Client Partnership with Children's National Medical Center

ATLANTA, Dec. 2, 2013 /PRNewswire/ -- [Streamline Health Solutions, Inc.](#) (NASDAQ: STRM), a leading provider of knowledge management solutions for healthcare providers, today announced that client Children's National Medical Center will deploy [OpportunityAnyWare](#), the company's business analytics software suite. Additionally, Children's National's community-based pediatric network will implement key components of the suite, which include the ARWare™ and DenialWare™ solutions.

Children's National, a Streamline Health client since 2010, is one of the top NIH-funded institutions in the United States. It is comprised of a community-based pediatric network, eight regional outpatient centers, an ambulatory surgery center, two emergency rooms, and an acute care hospital.

The OpportunityAnyWare suite is a user-friendly, SaaS-based solution that aggregates data from disparate sources throughout the enterprise and provides healthcare facilities with real-time actionable information that drives positive financial and operational results. The technology produces a real-time snapshot of a provider organization's financial, operational and clinical performance through instant access to all current, historical and transaction-level data.

"We continue to develop solutions that help our clients prepare for the many significant challenges they face in the rapidly changing healthcare landscape," stated Robert E. Watson, chief executive officer of Streamline Health. "We are pleased to provide additional solutions to deliver the knowledge clients need to stay ahead of the curve."

About Streamline Health

[Streamline Health Solutions, Inc.](#) (NASDAQ: STRM) is a leading provider of SaaS-based healthcare information technology (HCIT) solutions for healthcare providers. The company's comprehensive suite of solutions includes: enterprise content management (ECM), business analytics, integrated workflow systems, clinical documentation improvement (CDI), and computer assisted coding (CAC). This unique combination of solutions is designed to help healthcare organizations manage the financial and operational challenges they face in the ever-changing world of healthcare today and in the future.
