Nationwide Children's Hospital Extends Licensing Agreement With Streamline Health

Leading National Children's Hospital Extends SaaS Agreement and Expands Use of Streamline Health Document Management and Workflow Solutions

CINCINNATI, Jan. 18, 2012 /PRNewswire/ -- Streamline Health Solutions, Inc. (NasdaqCM: STRM), a leading provider of enterprise document management and revenue cycle solutions for healthcare organizations, today announced that Nationwide Children's Hospital has extended its licensing agreement for five years and adds additional document management and workflow solutions to its existing Streamline Health solutions.

A national leader in pediatric care, Nationwide Children's Hospital ranks in all ten specialties in *U.S. News & World Report's* 2011-2012 edition of "America's Best Children's Hospitals." As part of the agreement the hospital will:

- | Extend its existing license an additional five years for Streamline Health's Software as a Service (SaaS) model, which provides systems management, continual monitoring, and full security for Streamline Health document management and workflow solutions;
- | License Streamline Health's Integration Suite for Epic EMR to provide instant access to scanned clinical and financial records from within the Epic electronic medical record system with the goal of improving patient care and saving physician and staff time;
- | License Streamline Health's FolderAnyWare, a flexible document management system that provides secure, searchable storage of almost any file type or record with the goal of improving operating efficiencies within its Patient Financial Services department, and;
- | License Streamline Health's CharityWare workflow to speed the processing of charitable applications, with the goal of increasing productivity and enabling faster application submission for quicker reimbursement.

"We are pleased that Nationwide Children's Hospital will be expanding its use of our solutions," said Robert E. Watson, president and chief executive officer of Streamline Health. "By adding our non-patient centric document management system and patient financial services workflow solution we believe the hospital will take a step closer to reducing its dependence on paper. Also, by integrating our solutions with the electronic medical record system we believe the hospital will move closer to its goal of providing staff with a way to easily and quickly access the complete patient record."
